

From: _____

Governor Perry,
On September 14, 2005, Frances Newton,
AN INNOCENT WOMAN, is scheduled to be executed.

DO YOU KNOW that Frances would not have been convicted of crime if she had an effective trial counsel, other than Mr. Ron Mock?
DO YOU KNOW that based on photos from the crime scene and the style of shooting, a significant amount of blood should have covered the shooter; Frances, however, had no trace of blood on her body or her clothes.
DO YOU KNOW that the State destroyed potentially exculpatory evidence that would have tended to establish Frances' innocence?
DO YOU KNOW if the jury had known the facts that are presently known, they would not have found Frances guilty **beyond a reasonable doubt** and would not have given her the death sentence?

To:

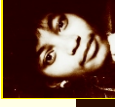

Office of the Governor
PO Box 12428
Austin, TX 78711-2428

Governor Perry,
The dubious motive, unrealistic timeline, the police's refusal to follow important leads, and most of all, her incompetent counsel, all point to the compelling evidence that proves Frances Newton is innocent. She has been **on death row for 18 years**, and you have already granted her a 120-day stay. But on the basis of new evidence, Frances needs to finally have her day in court. We plea to you in good conscience to **STAY THE EXECUTION OF FRANCES NEWTON**.
